JANUARY 22, 2014

Head Coach Harry Powell & Basketball Staff

The Spring Break Camp is a great place for any young basketball player who is willing to improve his or her skills, learn new moves, make new friends and have fun! Campers will develop and elevate all of their basketball skills— shooting, passing, dribbling, rebounding and defense. Over the course of the camp, camper's self-confidence will grow along with their overall appreciation of the game. It is our goal to teach fundamentally sound basketball skills and improve young student-athletes' abilities in the finer points of the game. During the camp, it is also our goal to develop players of every age and level. This weekend camp (Friday, Saturday & Sunday) still allows for families to have time for Spring Break activities yet build players' skills at the same time.
